Title of the project:

Enhancing legal information access with cutting-edge AI and RAG technology

Project done by:

J. Sathish -21b61a0571

J. Madan -21b61a0574

K. Sai Keerthana -21b61a0593

Lalima Priyadarshini .T -21b61a0598

Guided By:

Dr.A.Vijendar

About the project :

To develop an intelligent legal information system that uses Retrieval-Augmented Generation (RAG) and advanced AI to provide accurate, real-time, and contextual legal insights, enabling faster research, better decision-making, and broader access to legal knowledge.

What is the solution the project provides:

The project delivers an AI-powered legal assistant that leverages Retrieval-Augmented Generation (RAG) technology to offer accurate, real-time, and accessible legal information.

Patent:

Legal Face ID: Integrating Al-Driven Facial Recognition for Criminal Identification with Enhanced Legal Information Access.
